-

DisplayPort Spec and CTS Evolution

DisplayPort Spec Evolution

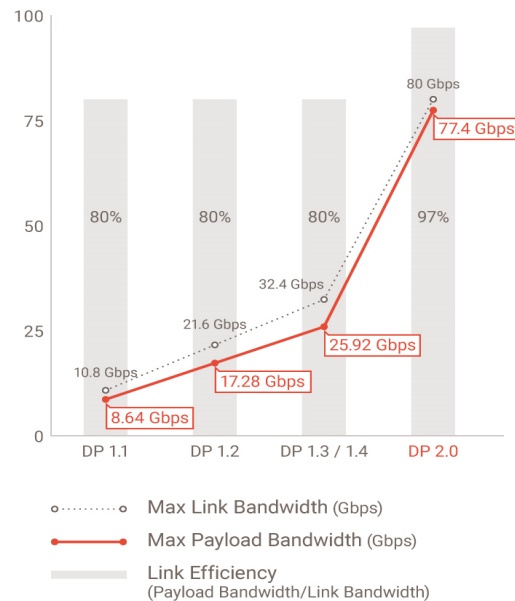

- Spec Evolution

DisplayPort Spec Evolution Cont'

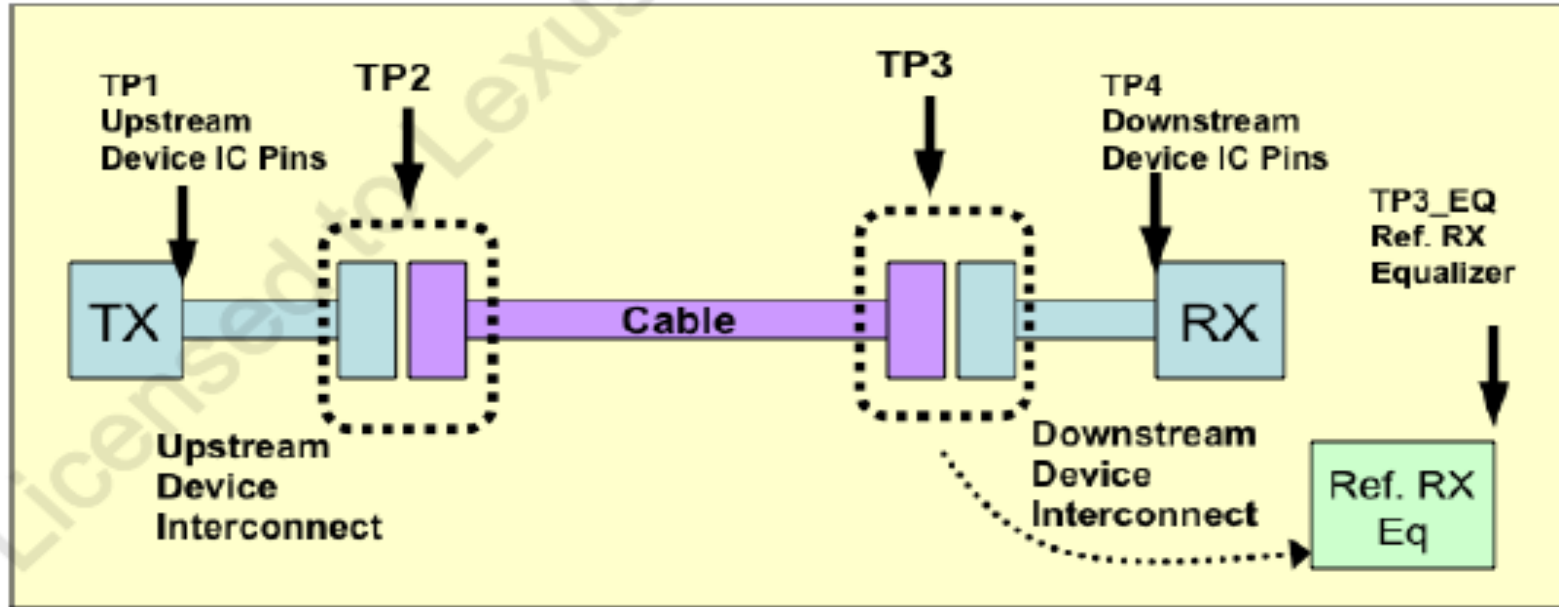

- DP 2.0 Spec
 - Released in June
 - Enhanced Data rate
 - » UHBR10=10Gb/s
 - » UHBR13.5=13.5Gb/s
 - » UHBR20=20Gb/s
 - New Channel Coding
 - » Added 128b/132b for UHBRX
 - » a 3X increase in data bandwidth

DisplayPort[™] EVOLUTION OF DISPLAYPORT DATA BANDWIDTH

DisplayPort Spec Evolution Cont'

- DisplayPort Test Point illustration

- DP 2.0 Spec

- Normative at **both** TP2 and TP3_EQ for UHBR10

Table 3-55: UHBR10 DPTX TP3_EQ Metrics System Parameters (Normative)

Table 3-56: UHBR10 DPTX TP2 Metrics System Parameters (Normative)

3.5.5.6.4 UHBR10 DPRX Jitter Tolerance Specification at TP3_EQ (Normative)

- Normative at TP2 **only** and informative at TP3_EQ for UHBR13.5 and UHBR20

Table 3-59: UHBR13.5 DPTX TP2' Metrics System Parameters (Normative)^a

Table 3-62: UHBR20 DPTX TP2' Metrics System Parameters (Normative)

Table 3-61: UHBR13.5 TP3_EQ Metrics System Parameters (Informative)

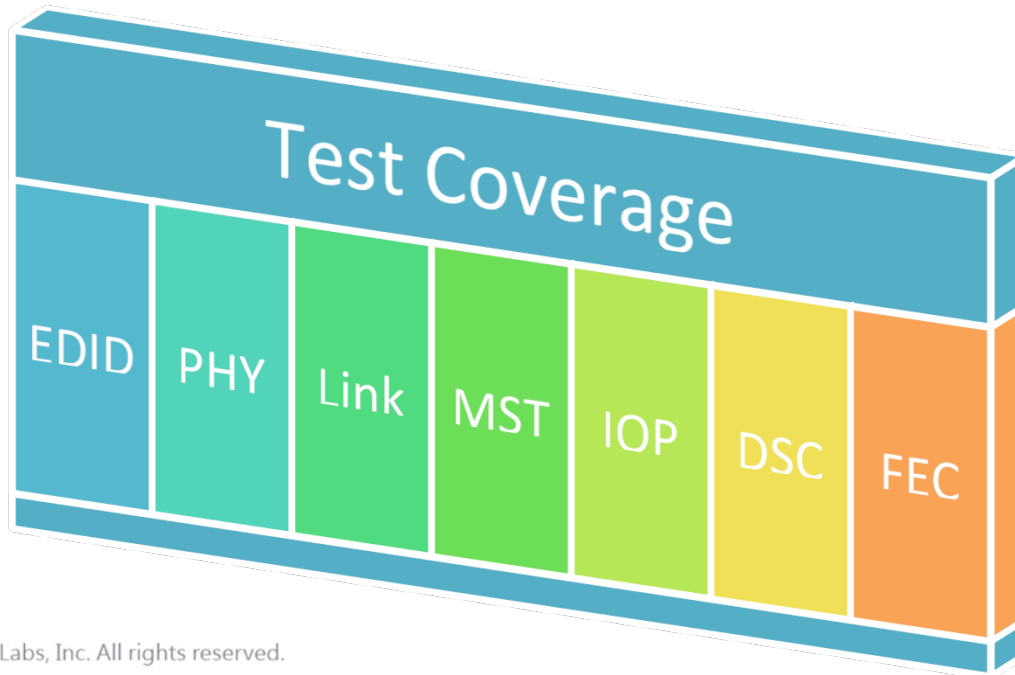

Table 3-64: UHBR20 TP3_EQ Metrics System Parameters (Informative)

- What does it imply by the previous slide for PHY CTS 2.0?
 - For Sink
 - » UHBR10: it would be tested at both TP2 and TP3_EQ
 - For tethered products like USB-C **cable** dock/ USB-C Display stick
 - » UHBR10/13.5/20: be tested at TP2 only
 - For Source
 - » UHBR10/13.5/20: be tested at TP2
 - » UHBR10: be tested at TP3_EQ

- What does it imply by the previous slide for PHY CTS 2.0?
 - For Passive Cable
 - » Be tested at UHBR10 **only**
 - » No UHBR13.5/UHBR20 test
 - For Active Cable
 - » Still under development
 - Be tested at UHBR10/13.5/20 at TP2 only

DisplayPort CTS Version Evolution Cont'

- The latest version is 1.4a.
 - Adaptive-Sync test is not included
 - HDR test is covered by DisplayHDR certification program

- Where is Allion DP 2.0 PHY CTS testing ?
 - Now ,Providing
 - » Sink JTOL for UHBR10/13.5/20G
 - Traditional DP Jitter test plan (SJ: 0.5/1/2/10/20/100MHz)
 - Current TBT Jitter test plan(SJ:1/2/10/50/100MHz)
 - » Source for UHBR10/13.5/20G
 - Eye Diagram , Jitter measurement , Inter-pair skew, and etc
 - » Cable for UHBR10
 - Eye Diagram , Jitter measurement

DisplayPort Application

DisplayPort Application Cont'

- DP Territories: IT industry, Smart phone, and Tablet

DP to DP connection
C to DP Connection

Monitor/Projector

Laptop/Tablet/Smart phone/
desktop

- DP Territories: USB-C helps penetrate CE industry (TV/STB)

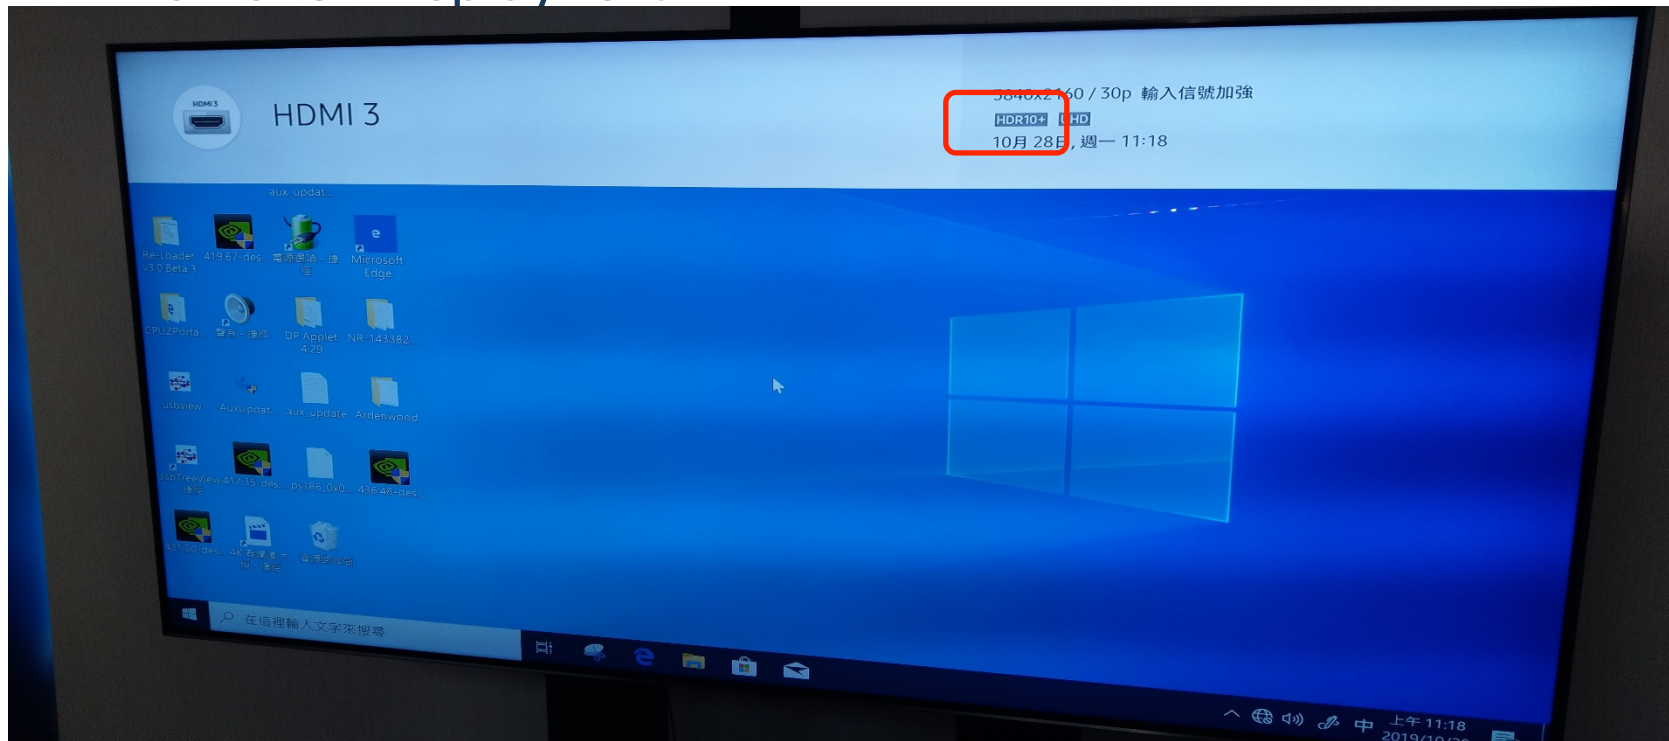

STB

TV

DisplayPort Application Cont'

- HDR 10+ over DisplayPort

DisplayPort Advanced Test Program

Benefit to Join The Program

- Objective
 - To check HDR performance of Graphics and DP-HDMI Protocol Converter
- How to Join
 - Prerequisite
 - » DP certification required
 - certified by other DP ATCs is welcome, too.
 - Apply to
 - » DP/HDMI Source devices
 - » DP-HDMI Protocol Converter

Benefit to Join The Program Cont'

- Test Category
 - Static HDR(DisplayHDR)
 - Dynamic HDR(HDR10+)
- When you see the certificate
 - Got VESA DP certification already
 - Assured HDR performance
 - Effort to product quality

Test Category DisplayHDR/HDR10+

Observed Issues sharing

Correct colors

1000 nits

Good Luminance

A HDR monitor's best Gamut performance, DCI-P3 coverage ratio: 95% at least

Observed Issues sharing Cont'

Incorrect colors

800 nits

Bad Luminance
(dropped a lot)

The HDR monitor's best Gamut performance, DCI-P3 coverage ratio: 59%

HDR Source:
(Laptop itself ,DP converter IC)

About Allion Labs, Inc.

- Allion is VESA Authorized Test Center for both DisplayHDR and DisplayPort

VESA CERTIFIED

DisplayHDR™

Global Facilities

Founded in 1991

25 +

Qualified Engineers

800 +

Test Equipment & Devices

20000 +

Test Projects Performed

300000 +

Authorized Third-Party Test Labs of **30+ Standard Alliances**

The ultimate goal is to accelerate certifications for customer's products and assist in gaining the competitive advantages in the market.

Design Consulting

- EE Fixture
- ME Fixture
- Product Design

Engineering Consulting

- Debugging Consulting
- Logo Usage
- QRS
(Quality Requirement Specification)

Testing

- Test Planning
- Logo Certification
- Problem Report

Allion is the premier resource for all of your third party testing needs. Our services bring products to market more quickly, reliably, and cost effectively to protect your brand quality and that of your suppliers.
